---

## PROFESSIONAL OBJECTIVE

Full Stack Developer with 3 years of experience in JavaScript, Ruby on Rails, and Python (Django), specialized in scalable and high-performance web applications. Proficient in front-end (HTML5, CSS, JavaScript) and back-end (Node.js, Ruby on Rails, Django) development, as well as MySQL and PostgreSQL databases. Trained through three Talento Digital bootcamps, with experience in collaborative projects using version control (GitHub) and agile methodologies. Passionate about creating efficient and secure solutions, seeking to contribute to a dynamic team and continue growing professionally.

---

## EDUCATION

### Computer Engineering, Universidad Tecnológica INACAP, Valdivia

March 2009 - December 2013

---

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS, JavaScript, ERB, modern frameworks.

**Backend:** Node.js, Express, Ruby on Rails (MVC, ActiveRecord), Django (ORM, DRF).

**Databases:** PostgreSQL, MySQL, SQL, SQLite.

**Python:** Automation, data analysis (Pandas, NumPy).

**DevOps:** Advanced GitHub, automated testing, Linux commands, scripting, deployments, AWS.

**Testing:** Unit, integration, functional, regression, performance, security testing, automation, manual QA, reporting and quality assurance.

---

## INTERPERSONAL SKILLS

Excellent communication and active listening • Teamwork and effective collaboration • Natural leadership and initiative • Positive attitude and continuous learning mindset • Empathy and respect in collaborative environments • Adaptability to suggestions and openness to feedback

---

## LANGUAGES

**English:** Intermediate (B1)

## WORK EXPERIENCE

---

### Featured Experience: CRM Development for Restaurant Company with Ineave

*September 2023 - July 2025*

Contributing to both front-end and back-end development.

### Real-Time CV Portfolio Development: Advanced Django Web Development

*May 2025 - July 2025*

Using Django's ORM (Object-Relational Mapping) to efficiently interact with relational databases like PostgreSQL and SQLite3.

### Test Automation: Specialization in Functional Testing

*June 2025 - September 2025*

Behavior-Driven Development, API and performance testing, using testing frameworks and continuous integration to ensure software quality.

## CERTIFICATIONS

---

### Talento Digital Ruby on Rails Bootcamp (450 hours)

*February 2022 - May 2022*

### Full Stack JavaScript Applications Development Bootcamp Trainee (434 hours)

*January 2024 - July 2025*

### Full Stack Python Applications Development Bootcamp Trainee (461 hours)

*July 2024 - February 2025*

### Premium Frontend Web Development Bootcamp

*February 2025 - June 2025*

### GitHub Foundations Bootcamp

*February 2025 - June 2025*

### PCEP Python Programmer Certification

*July 2024 - December 2024*

### Computer Engineering Degree Certificate

*March 2009 - December 2013*

### Scrum Master Course

*April 2023 - May 2023*

### English for Coders Certification

*July 2024 - August 2024*

### Introduction to DevOps

*February 2025 - April 2025*

### Testing Course

*February 2025 - March 2025*
