Professional Objective

Full Stack Developer with solid experience in JavaScript, Ruby on Rails, and Python (Django), specialized in building scalable and high-performance web applications. With training from three Talento Digital bootcamps, I bring advanced skills in both front-end (HTML5, CSS, JavaScript) and back-end development (Node.js, Ruby on Rails, Django), along with experience in relational databases such as MySQL and PostgreSQL. My focus is on creating efficient and secure technological solutions, leveraging version control practices with GitHub and agile methodologies. I seek to contribute in a dynamic environment where I can apply and expand my skills in web development and process optimization.

Highlighted Experience

- CRM Development: Collaborated in developing a CRM for a restaurant company, contributing to both front-end and back-end tasks in partnership with the development company Ineave. Played a key role in optimizing functionality and enhancing user experience.

Academic Background

- Bachelor's in Computer Science

  Universidad Tecnológica INACAP, Valdivia

  March 2009 - December 2013

- General Accountant

  Instituto Comercial Valdivia, Valdivia

  March 1995 - December 2000

Certifications and Courses

- Ruby on Rails Bootcamp (450 hours)
